How do I access myTGS?

To access myTGS, please visit <https://map.tgs.com/> in your browser. For the best user experience, we recommend using Google Chrome.

<p>To get started, click on the Sign In button in the upper-right corner.</p>	
<p>Once you click on the Sign In button, you will be directed to the myTGS login page. Please enter your email address and agree to the myTGS Terms of Use and TGS' Privacy Policy.</p>	

<p>Enter your Password and click Sign In.</p>	
<p>Click Send Email.</p>	
<p>To protect your organization's Information an email with a one-time security code will be sent to the email address provided.</p> <p>Enter the code and click verify</p> <p>Please note that the security code is set to expire after 5 minutes</p>	

How do I navigate and get started?

Once you are logged in, you will see TGS' global data coverage as shown below.

<p>The survey list on the left side of the screen corresponds to what is visible on the map as you zoom in/out and pan.</p>	
<p>Default data types displayed are:</p> <ul style="list-style-type: none"> • 2D Seismic • 3D Seismic • 2Dcubed • Well Data 	
<p>The colors in the survey list and the map represent the following Data Types and Statuses.</p>	

How do I find the survey that I'm looking for?

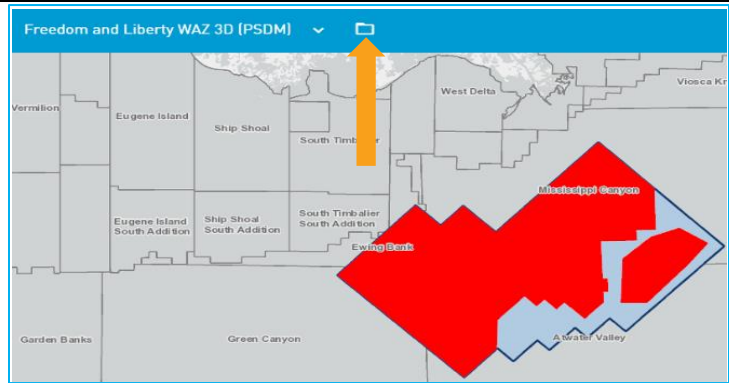

There are three simple ways to find the survey that you are looking for:

<p>Filter Survey Type</p> <p>Click the Filter Button and select/deselect the data types to be visible in the survey list and map.</p> <p>To see only your licensed data, select the "Licensed Data Only" checkbox.</p>	 <p>The screenshot shows the TGS data library interface. At the top, there is a search bar labeled 'Search Data Library'. Below it, a blue bar indicates the current display filters: '2D Seismic, 3D Seismic, 2Dcubed, Wel...'. A list of data types follows, each with a checkbox: 2D Seismic (checked), 3D Seismic (checked), 2Dcubed (checked), Aero Gravity and Magnetics (unchecked), Marine Gravity and Magnetics (unchecked), Multibeam and Electromag (unchecked), Interpretation and Reports (unchecked), Well Data (checked), and Carbon Storage (unchecked). An orange arrow points to the 'Well Data' checkbox.</p>
<p>Search Data Library</p> <p>This Text Search box allows you to enter any keywords such as survey name, country, region, survey type, etc. Notice that as you type, suggestions are displayed to autocomplete your search term(s).</p>	 <p>The screenshot shows the TGS data library search interface. The search bar contains the text 'Declaration'. Below the search bar, a list of suggestions is shown, including 'Declaration M-WAZ 3D Survey' and 'Declaration M-WAZ Refocus 3D Survey'. An orange arrow points to the 'Declaration M-WAZ Refocus 3D Survey' suggestion.</p>
<p>Map Search</p> <p>Clicking on your area of interest on the map places a pin and displays all the nearby surveys in the survey list.</p>	 <p>The screenshot shows the TGS data library map search interface. The map shows a location with a pin. Below the map, a list of nearby surveys is displayed, including 'Deep East GOM', 'Deep Focus GOM', and 'Ogo Fan 3D'. An orange arrow points to the 'Ogo Fan 3D' survey in the list.</p>

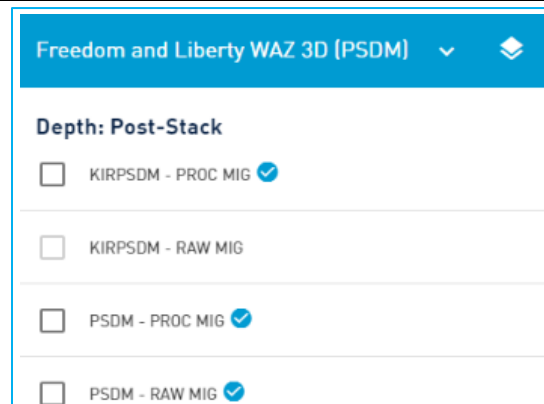

How do I obtain survey details and entitlement information?

<p>In the survey list, any surveys that have entitlement belonging to your organization will be indicated by teal checkmark ✓ Next to the survey name</p>	
<p>To view Survey Details, click on the survey name. On this page, you will find:</p> <ul style="list-style-type: none"> • Project overview • Percentage of each project your company has licensed • Available Deliverables • Related content such as spec sheets • More options 	
<p>To view Entitlement Details, click on the project name from the left-hand side of the screen.</p> <p>The percentage next to the project name indicates the percentage of the project that your company has licensed.</p> <p>Once the project name is clicked, a popup will display a map of the entitlement with the actual units of ownership.</p>	

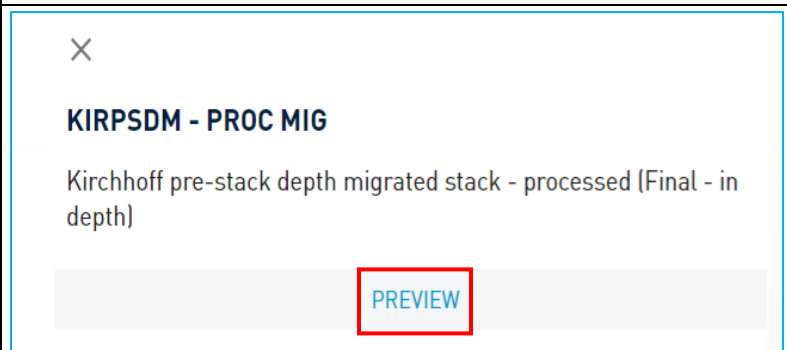

For companies who have a data management subscription, click on the **Folder icon** to see available products as well as preview and download the data.

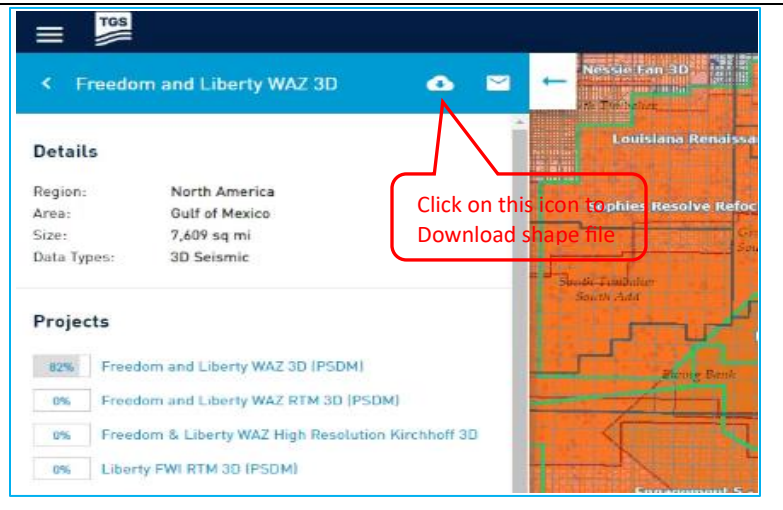

Once the folder icon is selected, the list of products will be displayed. If a **product** is **available to download** or **preview** it will have a folder icon next to its name; click the **folder icon** to continue.

Once the folder icon is clicked, the available files will appear in a new pane on the righthand side of the popup window.

To **download a shapefile of the project**, click on the **cloud icon** next to the project name. The download includes detailed information about the survey and the portion of the survey your company has licensed.

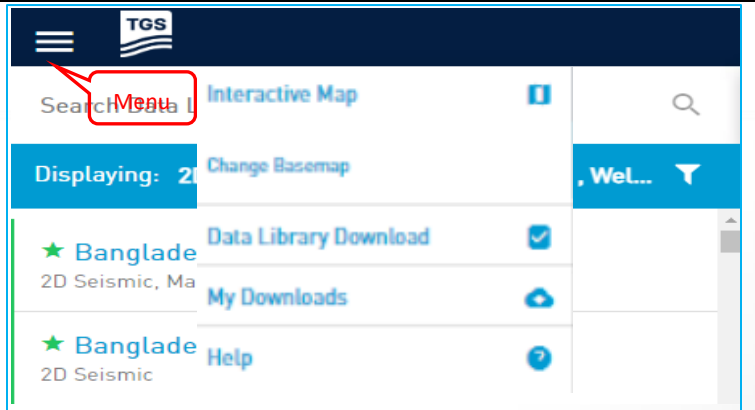

What else can I do in myTGS?

To change the **base map**, click on the base map icon on the map.

In the survey list, clicking on the main Menu will provide you with the following:

- **Interactive Map** takes you back to a view of the global map.
- **Data Library Download** allows you to select one or more **areas** to download shapefiles of TGS data and your company's entitlement. Depending on the size of the data, the selected download can take some time and you will receive an email notification once the download is complete and available under My Downloads.
- **My Downloads** displays all the survey downloads you have requested.

For questions or comments regarding myTGS, please contact your TGS account manager.
